New eForms Launched

In line with the plan for government services to be accessible anywhere 24 hours a day, 5 eforms have been launched by the Ministry for the Family, Children's Rights and Social Solidarity. This is part of the ongoing renewal process for the Public Service, leading to reduced bureaucracy, increased efficiency, government services brought closer to the community, and a service of a higher quality delivered to clients of the Public Service. The new Eforms are related to:

Jobs Enhancing Skills Scheme (JESS) – Entities - JESS is a scheme where abilities of persons with disability are strengthened for job-related purposes by offering job opportunities and training to develop new skills thus increasing possibilities of seeking gainful employment.

Workshops and Support Groups – When a child is diagnosed with a disability, the family goes through a rollercoaster of emotions. Families may also experience a sense of helplessness and lack of courage. Even though the needs of each family are individual, some queries and emotions are common amongst families who have a child

with disability. Thus Aġenzija Support Social Work Services launched Workshops and Support groups to support these families
